For Immediate Release

VENTURETECH BACKS TYMBA EDUCATION GROUP TO SCALE DIGITAL PROFESSIONAL EDUCATION AND STRENGTHEN HUMAN CAPITAL DEVELOPMENT

CYBERJAYA, 28 January 2026 – VentureTECH Sdn Bhd (VentureTECH), an impact investment company, has announced its strategic investment in TYMBA Education Group Sdn Bhd (TYMBA), an education technology (EdTech) company specialising in professional accountancy and finance qualifications, to support the scaling of TYMBA's digital learning platform and regional expansion across ASEAN.

The investment will enhance TYMBA's proprietary learning management platform, TYMBAFlex, strengthening operational capacity and accelerating regional market expansion. These initiatives will position the company to meet growing demand for globally recognised professional qualifications delivered through flexible, technology-enabled and accessible learning models.

Since its inception in 2020, TYMBA has grown into a leading professional accountancy centre offering programmes such as ACCA, ICAEW, MICPA-CAANZ, CFA and CIMA through TYMBAFlex, its purpose-built digital learning platform. TYMBAFlex integrates structured content, live and recorded lectures, assessments, progress tracking and student support within a single ecosystem. The investment will support the platform's evolution into an Integrated Learning Experience (ILE), incorporating AI-powered tutoring, advanced analytics and automated mastery-based progression. Delivered through a hybrid learning model that combines digital instruction with guided support, the platform enables learners to pursue internationally recognised qualifications while balancing professional commitments at a more accessible cost.

TYMBA's strong market traction is reflected in its ACCA Platinum Approved Learning Partner status — achieved as the fastest institution globally to attain this recognition — driven by consistently high student pass rates, strong academic outcomes and learner satisfaction. The company records a pass rate of 83%, significantly above the global average of 54%, and has supported more than 5,000 students in progressing towards internationally recognised professional credentials across Malaysia and regional markets including Indonesia, Myanmar, Cambodia and Brunei, reinforcing its position as a trusted education partner in the region.

The investment aligns with VentureTECH's mandate to nurture high-growth, high-value (HGHV) Bumiputera companies and supports national aspirations under the Pelan Transformasi Ekonomi Bumiputera 2035 (PuTERA35). By leveraging technology and hybrid learning, TYMBA contributes to strengthening Malaysia's human capital pipeline, widening access to professional education and expanding Bumiputera participation in professional and knowledge-based sectors.

Ahmad Redzuan Sidek, Chief Executive Officer of VentureTECH said, "This investment is designed to scale access to high-quality professional education through technology and hybrid learning. By supporting TYMBA's digital platform, TYMBAFlex, and the company's regional growth, VentureTECH aims to make globally recognised qualifications more affordable and accessible, support lifelong learning journeys and strengthen Bumiputera representation in high-value professions — ultimately contributing to a more competitive and future-ready workforce."

"Beyond capital, VentureTECH plays a developmental role by supporting companies that address structural gaps in the economy. In Tymba's case, this includes widening access to professional education, strengthening human capital outcomes and enabling a scalable platform that benefits individuals, organisations and the broader ecosystem in line with national development priorities." he added.

Meanwhile, Mohd Airil Razali, Chief Executive Officer of TYMBA Education Group said, "TYMBAFlex was built to support students at every stage of their professional journey — from flexible learning pathways to strong academic outcomes. VentureTECH's support validates our mission to make high-quality professional education more accessible and future-ready. This partnership will accelerate our technology roadmap, support regional expansion and strengthen our ability to develop industry-relevant professionals."

The collaboration also complements TYMBA's ongoing engagement with strategic partners such as Yayasan Peneraju in supporting professional education pathways for Bumiputera learners.

With a scalable digital platform, hybrid delivery model and expanding regional presence, TYMBA is well-positioned to play a growing role in shaping the future of professional education in Malaysia and the wider ASEAN region.

end

About VentureTECH

VentureTECH (www.venturetech.my) is a government-backed impact investment company established to catalyse the growth of local industries particularly Bumiputera in the high value added and high technology industries through equity investment. VentureTECH was incorporated as a wholly owned subsidiary of the Malaysian Industry-Government Group for High Technology (MIGHT).

About TYMBA

TYMBA Education Group (www.tymba.com.my) is a Malaysian education technology (EdTech) company specialising in professional accounting and finance qualifications. Through its proprietary TYMBAFlex platform, TYMBA serves over 5,000 students across Malaysia, Indonesia, Cambodia, Brunei and Myanmar. The company is an ACCA Platinum Approved Learning Partner—the fastest institution globally to achieve this status.
